TO WHOMSOEVER IT MAY CONCERN

This is to certify that M/s. Vair Systems Private Limited, New Delhi have designed, supplied, erected and commissioned @ 400 Nm³/hour capacity H₂S Biological Scrubber along with Bio-gas De-humidifier in the month of February, 2024 for Chennai Metropolitan Water Supply Sewerage Board 120 MLD Sewage Treatment Plant at Kodungaiyur, Chennai, Tamilnadu. The average H₂S at inlet is 7,000 ppm and the outlet is less than 50 ppm constantly. During the engine performance testing Scrubber inlet flow @ 500 Nm³/hour and outlet flow @ 600 Nm³/hour have been allowed and tested successfully. Now the scrubber system is running continuously. Automation also has been synchronized with the system.

We are satisfied with the quality and workmanship of the Scrubber system supplied by M/s. Vair Systems Private Limited and the system is working satisfactorily.
